

How to Re-enable AddressTools Functionality Through Alerts & Messages

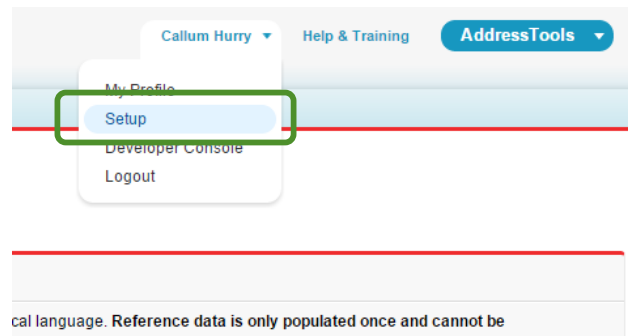

This guide will cover:

- ✓ Adding Messages & Alerts to the Sidebar Component
- ✓ Adding AddressTools code to Messages & Alerts

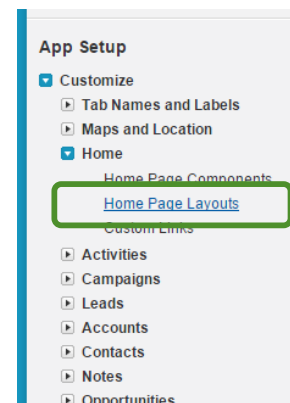

Note: This method of Javascript injection is due to be removed in Salesforce's Spring '16 release.

Adding Messages & Alerts to the Sidebar Component

- 1) Navigate to **Setup** in the top right of your Org.

- 2) Under App Setup in the sidebar, go to **Customize** → **Home** → **Home Page Layouts**.

3) Select **Edit** next to the profiles which you want to have AddressTools functionality.

Home Page Layouts

This page allows you to create different tab layouts for the Home Tab.

Action	Name ↑	Created By
Edit Del	Dashboard Home Page Default	Jim Gerrard, 06/10/201

4) Select **Messages & Alerts** and select **Next**.

Step 1. Select the components to show Step 1 of 2

Choose the components to include on your home page layout.

Layout Name:

Select Wide Components to Show |= Required Information

Items to Approve <input type="checkbox"/>	Calendar <input checked="" type="checkbox"/>
Tasks <input checked="" type="checkbox"/>	Dashboard Snapshot <input checked="" type="checkbox"/>
Paused Flow Interviews <input type="checkbox"/>	

Select Narrow Components to Show

Create New... <input checked="" type="checkbox"/>	Recent Items <input checked="" type="checkbox"/>
Messages & Alerts <input checked="" type="checkbox"/>	Custom Links <input checked="" type="checkbox"/>
Tags <input type="checkbox"/>	Customer Portal Welcome <input type="checkbox"/>
AddressTools <input checked="" type="checkbox"/>	Address Validation <input type="checkbox"/>
CountryComplete <input type="checkbox"/>	

[Next](#) [Cancel](#)

5) Select **Save**.

Step 2. Order the components Step 2 of 2

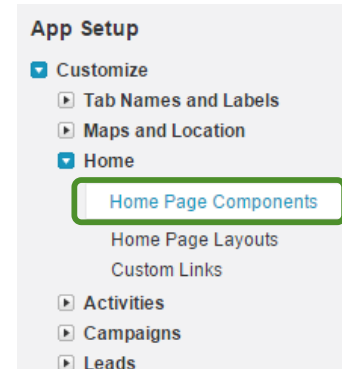

Arrange the components on your home page.

Narrow (Left) Column	Wide (Right) Column
<div style="border: 1px solid #ccc; padding: 5px; min-height: 100px;"> Create New... Recent Items Custom Links Messages & Alerts AddressTools </div>	<div style="border: 1px solid #ccc; padding: 5px; min-height: 100px;"> Dashboard Snapshot Tasks Calendar </div>

Adding AddressTools code to Messages & Alerts

- 1) Whilst still in Setup from the previous steps, navigate to **Customize** → **Home** → **Home Page Components** from within App Setup in the sidebar.

- 2) Select **Edit** next to Messages & Alerts.

Standard Components		
Action	Name	Component Type
	Create New...	Create New...
	Recent Items	Recent Items
Edit	Messages & Alerts	Note
Edit	Custom Links	Links
Edit - Record 3 - Messages & Alerts	Dashboard Snapshot	Dashboard

- 3) **For Premium Users:** Paste the following code into the box provided and select **Save**.

```
<script src="/apex/pw_ccpro__CountriesJavaScript?core.apexpages.devmode.url=1"></script>
<script src="/resource/pw_ccpro__CountryCompleteResources/javascript/CountryAutoComplete.js"></script>
<script src="/resource/pw_ccpro__AddressCompleteResources/javascript/AddressComplete.js"></script>
```

- 1) **For Free Users:** Paste the following code into the box provided and select **Save**.

```
<script src="/apex/pw_cc__CountriesJavaScript?core.apexpages.devmode.url=1"></script>
<script src="/resource/pw_cc__CountryCompleteResources/javascript/CountryAutoComplete.js"></script>
<script src="/resource/pw_cc__AddressCompleteResources/javascript/AddressComplete.js"></script>
```
